What About the Streets?

By far the largest slice of Casper's Optional One Cent Sales Tax has been given to street projects. Year after year, the citizens of Casper have said that streets are their number one priority for additional funding. For that reason, **\$152 million** of the Optional One Cent has been dedicated to street work since 1976.

Every year, three to four miles of Casper's residential streets are resurfaced with nice, new, seamless asphalt. Other roads are patched, repaired, and resurfaced using One Cent funds.

One Cent Uses 1976-2013
